

Nether Alderley Parish Council Risk Assessment 2023/24

The document ‘Governance and Accountability for Local Councils: A Practitioner’s Guide March 2021 (England) states that “Risk management is the process whereby authorities methodically address the risks associated with what they do and the services which they provide. The focus of risk management is to identify what can go wrong and take proportionate steps to avoid this or successfully manage the consequences.” The Guide explains that “Once the authority has identified its key risks, the next step is to assess the potential consequences of a risk occurring (impact) and consider how likely this is (likelihood)”.

This document is produced to record the Parish Council’s assessment of the risks that it faces and to satisfy itself that it has taken adequate steps to minimize and address risk.

The following procedure has been followed:

- » Areas to be reviewed are identified
- » The potential risks are identified
- » Management and control of the risk is evaluated and findings recorded
- » Each area is reviewed, assessed and revised if necessary
